

Conflict Free Minerals Policy

Machine Inc. supports the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Electronic Industry Citizen Coalition, Incorporated and the Global e-Sustainability Initiative with respect to Conflict-Free Sourcing Initiative for sourcing Tungsten raw materials from socially and environmentally responsible suppliers.

The Machine Inc. Conflict Minerals Policy applies broadly to Machine Inc. products and Machine Inc. suppliers that directly support Machine Inc. product manufacturing. The known sources of material of concern include but may not be limited to tantalum, tungsten, tin and gold.

Although Machine Inc. cannot fully verify the source of tin, tantalum, tungsten and gold used in the supply chain, we are committed to purchasing materials from environmentally and socially responsible suppliers.

Machine Inc. will support industry trade groups, suppliers and customers in establishment of a verifiable supply chain that draws materials from conflict free mines.

Machine Inc. does not use Tantalum, Tungsten, Tin or Gold in its current processes.
